

**CORRY MICRONICS, INC**

Corry Micronics was established in the 1970's to meet the needs of the United States Department of Defense, Corry Micronics has become a leading supplier in the field of EMI/RFI filter products for critical defense, aerospace, medical, communications and industrial applications. Over the past 10 years, CMI has broadened its product offerings to include RF/Microwave filters, diplexers, multiplexers, low noise amplifiers, Hi-Power amplifiers, microwave switches, couplers, dividers, waveguide components and more. The recently introduced configurable microwave/rf switch system has been developed for the automatic testing applications with ease of programming and at an affordable price. Combining its extensive engineering experience, unmatched response time and commitment to customer support, CMI is the industry leader providing the best, cost-effective customized solutions with its wide range of EMI/RFI filters, RF and microwave components and sub-systems.

**At Corry Micronics, we focus on solving our customers' problems. AT CMI, we have been supplying products to wireless and wired telecommunications companies, military, medical and the test and measurement industries for over 40 years. Our engineering service group offers the following services:**

- **RF and Microwave Products**
  - **RF switches**
  - **RF Switch Matrixes**
  - **Antenna and waveguide assemblies**
  - **RF Power Amplifiers**
  - **Microwave filters and Diplexers**
  - **Switched filter assemblies**
  - **Custom microwave assemblies**
  - **Broadband splitters and combiners**
  - **Hi-power directional couplers**
  - **Hi-Power Limiters**
  
- **Single and multiple-line Ceramic filters**
  - **Bolt-in filters**
  - **Solder-in filters**
  - **Eyelet style filters**
  - **Press-in filters**
  - **Hermetic filters**
  - **Hi-current filters**
  - **Spanner Head filters**
  - **Glass-to-metal seals**
  - **Surface mount filters**
  - **Filtered terminal blocks**
  - **Ceramic tubular filtered adapters**
  - **Filtered circular connectors**
  - **Ceramic tubular filtered d-sub connectors**
  - **Filter Plates**
  
- **Testing Services**
  - **Temperature, humidity and hermetic seal test services**
